WORK EXPERIENCE

Deloitte Consulting LLP

Gilbert, Arizona

Solutions Analyst 2

September 2022 - June 2025

- Led procurement and inventory tracking for the U.S. Treasury by performing lead-time analysis and implementing a Warehouse Management System and barcode labeling process, enhancing inventory visibility and fulfillment efficiency
- Consulted for a major Aerospace and Defense company on Product Lifecycle Management Strategies by structuring and executing a Capability Maturity Model for existing systems
- Drove operational efficiency improvements for a medical device client by redesigning workflows and introducing new ways of working
- Developed a comprehensive SAP-to-Teams Center data migration strategy guide used by Deloitte partners to support client implementations
- Evaluated the impact of Generative AI by developing an AI-based supplier management tool with the Supply Chain team to assess supplier performance and decision-support capabilities
- Conducted interviews with senior industry leaders as a core member of the Model-Based Enterprise (MBE) team to assess organizational maturity along the MBE curve

Honeywell - Aerospace

Phoenix, Arizona

Strategic Planning Intern

May 2021 - August 2021

- Analyzed 15+ economic variables, including COVID-19 impacts, affecting global airline flight hours by running multiple regression models in Excel and presenting insights through graphs and heat maps
- Conducted competitive market analysis of radar and drone products to support strategic planning, delivering go-to-market recommendations to senior management
- Performed a comprehensive cost-benefit analysis to evaluate in-house manufacturing of lithium-ion batteries, incorporating competitor strategy and financial feasibility assessments
- Collected and analyzed SEC data on order backlogs across major aircraft OEMs to develop market demand forecasts

Arizona State University

Tempe, Arizona

Economics Teaching Assistant

August 2020 - December 2020

- Worked with the Economics professor to help 300+ students learn various Economics concepts and answered questions about their coursework alongside tutoring multiple upper-level Economics courses
